

INTEGRATED MATHEMATICS TOURNAMENT
2026 IMT Statistics Report

Overview

The 2026 Integrated Mathematics Tournament (IMT) featured four main subject rounds: Number Theory, Combinatorics, Geometry, and Algebra. Each round consisted of 10 problems ordered roughly by difficulty. This document provides a statistical breakdown of participant performance across all rounds.

Note: The team round was voided in the competition, and therefore no statistics for the team round are provided.

Problem Solve Rates

The table below displays the percentage of participants who successfully solved each problem within their respective rounds.

Problem	Number Theory	Combinatorics	Geometry	Algebra
Problem 1	50.0%	33.3%	34.5%	53.1%
Problem 2	25.0%	38.1%	10.3%	24.5%
Problem 3	35.7%	28.6%	13.8%	38.8%
Problem 4	25.0%	23.8%	10.3%	14.3%
Problem 5	21.4%	28.6%	20.7%	24.5%
Problem 6	14.3%	19.0%	17.2%	26.5%
Problem 7	17.9%	28.6%	10.3%	12.2%
Problem 8	10.7%	19.0%	0.0%	14.3%
Problem 9	7.1%	38.1%	0.0%	20.4%
Problem 10	3.6%	4.8%	3.4%	8.2%
